PROFESSIONAL SUMMARY

Computer Engineering undergraduate with hands-on experience building and delivering real-world full-stack and AI-powered applications across 10 hackathons. Skilled in React.js, Next.js, Express.js, FastAPI, and React Native, with strong backend experience using Node.js, PostgreSQL, MongoDB, Redis, and Docker. Experienced in integrating AI features using LangChain, Generative AI. Eager to bring these skills to an entry-level Full-Stack or AI Engineer role and contribute from day one.

EDUCATION

U. V. Patel College of Engineering, Ganpat University — Kherva, Mehsana, Gujarat	2024 – 2027
B.Tech. Computer Engineering · 6 th Semester	CGPA 7.8
Institute of Technology, Ganpat University — Kherva, Mehsana, Gujarat	2021 – 2024
Diploma in Computer Engineering · Complete	CGPA 9.45

HACKATHONS & ACHIEVEMENTS

Odoo x Parul University Hackathon 2026 (Finalist)	2026
▸ Finalist position in a national 24-hour hackathon at Parul University, built a fully functional Cafe POS system on the Odoo platform competing against top developer teams from across India.	
CanHack 2026 (Participated)	2026
▸ Participated as Team Lead, led Team Brainwave Tech at an international hackathon hosted by the University of Canberra, engineered UrbanSense an AI-powered smart city platform representing India on a global engineering stage.	
Smart India Hackathon 2025 (Participated)	2025
▸ Built a Smart Tourist Safety Monitoring System for Team Safe Horizon featuring AI anomaly detection, real-time Geo-Fencing, Blockchain-secured Digital ID, one-tap SOS, and automated E-FIR generation, selected among top teams at India's most prestigious government hackathon.	

PROJECTS

KeplerLab AI Notebook	2026
▸ Built a full-stack AI study platform using Next.js and FastAPI with 25+ API routes, JWT + Google OAuth auth, ReAct AI agent, RAG-powered chat with ChromaDB vector search, flashcards, quizzes, mindmaps, podcast studio with TTS, and sandboxed multi-language code execution via Docker.	
▸ Engineered scalable backend with LangChain AI pipelines, 8+ LLM provider support (Gemini, OpenAI, Anthropic, Ollama), Redis job queues, SearXNG web search, real-time WebSocket streaming, rate limiting, and Zustand-powered frontend.	
Smart Tourist Safety Monitoring System	2025
▸ A tourist app with live GPS tracking, panic buttons, and secure Digital IDs, connected to an Express.js backend that routes requests to a FastAPI server using Random Forest and Isolation Forest models for AI anomaly detection and safety scoring.	
▸ React Police Dashboard with Blockchain E-FIR: A live map dashboard for police to track alerts and manage safety zones, powered by the same Express.js backend with blockchain-secured crime report (E-FIR) generation.	
UrbanSense – AI-Powered Smart City Platform	2025
▸ Built a React Native civic issue reporting app (citizen + officer roles) with OTP auth, GPS-tagged issue reporting with photo/voice input, real-time status tracking, and a citizen contribution leaderboard.	
▸ Engineered a Next.js admin dashboard with live complaint monitoring, department-wise analytics, officer performance tracking, and AI-powered issue classification with automatic severity scoring and department routing.	

CERTIFICATIONS

▸ IBM RAG and Agentic AI (IBM — Jun 2026) Learned to build Retrieval-Augmented Generation pipelines and Agentic AI workflows for real-world applications.
▸ Claude Code in Action (Anthropic Education — May 2026) Learned to build and deploy AI-powered applications using Claude API and modern prompt engineering techniques.
▸ Google Cloud Study Jam (Google Developer Group — Nov 2025) Gained hands-on experience with Google Cloud infrastructure, core services, and cloud deployment fundamentals.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

Python, JavaScript, SQL, Java, C/C++, TypeScript, Kotlin

WEB, APP & BACKEND DEV

React Native, FastAPI, Node.js, Express.js, REST APIs, Socket IO, PostgreSQL, MongoDB, MySQL, Redis

AI / ML & DEEP LEARNING

Scikit-learn, LangChain, Generative AI, Prompt Engineering

DEVTOOLS & CLOUD

Git, GitHub Actions, Docker, Postman, Linux, CI/CD, AWS

SOFT SKILLS

▸ Team Collaboration & Communication	▸ Debugging & Performance Optimization
▸ Documentation & Technical Reporting	▸ Analytical Thinking & Decision Making
▸ Time Management & Adaptability	▸ Self-directed Learning & Research
